Profile Summary

A full stack developer with high **problem-solving skills** and develops **complex projects**. Proficient Front-End Developer with hands-on experience in HTML, CSS, JavaScript, and responsive web design.
Skilled in using modern front-end frameworks such as React.js and GSAP to build dynamic and user-friendly web applications.
Enthusiastic about learning new technologies and frameworks to bridge the gap between front-end and back-end development.
Seeking a Full Stack Developer role to leverage front-end skills and grow expertise in full-stack development.

Academic Projects

Portfolio Website
Technologies used : HTML, CSS, JavaScript, Tailwind, Git for version control.
A personal portfolio showcasing your projects, skills, and resume. It includes a contact form, responsive design, and smooth navigation.
Key Features: Mobile responsiveness, cross-browser compatibility, form validation, smooth scrolling.

To-Do List
Technologies used : HTML, CSS, JavaScript, Git for version control.
A simple to-do list app allowing users to add, update, delete, and mark tasks as completed. The app stores tasks locally.
Key Features: DOM manipulation, event handling, localStorage API for saving tasks.
· Developed a dynamic, full-featured To-Do list web application using JavaScript
· Implemented CRUD functionality (Create, Read, Update, Delete) to manage tasks efficiently, with real-time updates and a responsive UI.

Weather App
Technologies used : HTML, CSS, JavaScript, REST API.
A weather forecasting app that fetches data from a public API to display current weather conditions based on the user's location or city search.
Key Features: API integration, async/await, responsive UI, dynamic content rendering.
· Developed a weather forecast web application using JavaScript and integrated OpenWeather API and Displayed real-time weather data, including temperature, humidity, wind speed, and forecast for multiple cities worldwide.
· Utilized RESTful API calls to fetch accurate weather data and implemented error handling for invalid or failed API requests.

Experience

InternPe   **Jul, 2023 – Aug, 2023**
Mode - Remote
Throughout my Internship I developed a strong foundation in HTML, CSS, JavaScript, UI/UX, Web Development, Problem Solving which equipped me with a solid understanding of engineering principles and problem-solving techniques.

Accenture North America Data Analytics and Visualization Job Simulation on Forage - September 2024
Completed a simulation focused on advising a hypothetical social media client as a Data Analyst at Accenture
Cleaned, modelled and analyzed 7 datasets to uncover insights into content trends to inform strategic decisions
Prepared a PowerPoint deck and video presentation to communicate key insights for the client and internal stakeholders
